### INDIVIDUAL PROPERTY/DISTRICT MARYLAND HISTORICAL TRUST INTERNAL NR-ELIGIBILITY REVIEW FORM

Eligibility recommended	Property/District Name: <u>Deep Branch Road Bridge (Bridge No. WI4091)</u> Survey Number: <u>WI-250</u>
Criteria: _A _B _C _D Considerations: _A _B _C _D _E _F _G _None Justification for decision: (Use continuation sheet if necessary and attach map) The existing timber bridge was surveyed as part of the statewide historic bridge inventory and an inventory form was prepared: Deep Branch Road Bridge (Maryland Inventory # WI-250). However, the existing information is scant and does not support a determination of eligibility. First, it is not possible to be certain of the construction date for this bridge. Various sources provide dates of 1929 and 1939. In addition, the accuracy of these dates is thrown into question by the presence of old timber piles on the same alignment, underneath the existing bridge. These old piles imply that the bridge may have beer reconstructed at some date after 1929 or 1939. Secondly, records indicate that the original railing system was replaced with the existing steel W-beams. Thus the bridge has lost a character defining element. To conclude, at this time, there is no information suggesting this bridge has any particular significance under any of the Criteria for Evaluation, its onstruction history is murky and its integrity has been compromised.  Apparently, the inventory form for the bridge was reviewed by the interagency bridge review committee, composed of members of the Federal Highway Administration, State Highway Administration and Maryland Historical Trust. However, the record is not clear with respect to the committee, composed of members of the Federal Highway Administration in the minutes) It appears that the committee may have tentatively determined the bridge to be eligible, pending confirmation that the pile bents of the existing bridge did indeed date to 1929. As it is unlikely that such confirmation will ever be available, it seems appropriate to determine the bridge ineligible.  Documentation on the property/district is presented in:Project File, Maryland Inventory form WI-250  Prepared by: _Stacie Webb, SHA  Elizbeth Hannold  Reviewer, Office of Preservation Servic	Project: <u>Replace Deep Branch Road Bridge over Tyaskin Creek</u> Agency: SHA/WI County
